

Resident designs T-shirt for foundation

Contributed photo

Eleven-year-old Rebecca Lockhart, second from left in the front, recently designed a T-shirt for the Craniofacial Foundation's annual family camping weekend held at Camp Adahi. She is the daughter of Lebron and Lisa Lockhart of Signal Mountain. The weekend camp began five years ago for families of children born with facial differences. This year, more than 100 people attended the camp, which featured horseback riding, archery, canoeing, crafts and the opportunity to meet other families.
